

### **Built specifically for your industry**

QuickBooks is available in industry-specific editions that offer specialised tools and features unique to your industry. Whether you're an Accountant, Contractor, Manufacturer, Not-for-Profit, Professional, Retailer, or Property Manager there is a specific QuickBooks version for you.

### **Share Data Among Simultaneous Users**

Allows up to five users to work on a QuickBooks company file at the same time.

### **Have Greater Control Over Data**

Set user permissions to restrict access to your confidential and sensitive financial information. This feature is especially useful if your business has multiple users of QuickBooks, and you want to restrict access by user to parts of your financial data. QuickBooks allows you to password-protect your closing date. You can easily see any changes made before the password-protected closing date in a convenient report, showing you who has made what changes.

### **Comprehensive employee management**

Gives you easy-to-use tools and the latest tax tables you need to help manage and maintain control of your payroll. The payroll feature saves you time and money by avoiding duplicate data entry and helps to avoid hassles associated with incorrect payroll withholding.

### **Increase efficiency with advanced tools**

Save your business undue costs by utilising QuickBooks email functionality. Invoices, statements, estimates, purchase orders, sales orders, sales receipts, adjustment notes, and reports can all arrive on your suppliers or customers desktop within minutes. There is no need to separately track your contact lists - you can easily synchronise your contact information with Microsoft® Outlook.

### **Instant access to your information**

QuickBooks Premier has over 100 reports and graphs providing an overview of your business at any time. When you need in-depth information, you can navigate between financial details and a summary report in just one click.

### **Better tools to make assist you in managing your business.**

Compare the performance of your products or services and measure the area of the most and least profitability in your business. The business centre includes reports that help you compare alternatives and analyse your financial position. You can have QuickBooks remind you when it's time to pay bills, print cheques, deposit money in the bank, enter memorised transactions, act on overdue invoices, or act on your personal To Do notes. QuickBooks can also remind you to print forms such as invoices and purchase orders.

### New Features

- ✓ Import bank statements into QuickBooks and match transactions easily\*
- ✓ Report to display a list of all transactions without tax codes
- ✓ BAS configuration settings retained upon upgrade
- ✓ eAS (electronic activity statement) submission updates
- ✓ Pay all BAS-related liabilities with a single cheque
