

Payroll 2006/07 Premier

Features & Benefits

Easy to set up and learn

Benefit from easy to follow software wizards, help screens and context sensitive on-line assistance. Payroll Premier has simple, yet innovative reporting and data entry capabilities. Even the most tedious tasks are rendered hassle-free, from the setting up of Award Interpretation to complex data conversion. Plus Payroll Premier contains no accounting jargon or complex instructions.

Track & manage employee records

Keep track of salaries, holiday and sick time, deductions, allowances, superannuation and more with minimum effort and ease. Earnings, deductions and other financial details are calculated automatically. In addition, Payroll Premier offers you the choice of weekly, fortnightly, monthly or bi-monthly pay frequencies and the capacity to manage extensive employee records.

Fast-track your payroll processing

Payroll Premier is Australia's best selling stand-alone payroll package because it saves you so much time. Intuitive navigation is enhanced by graphic screens and the speediest spreadsheet entry around. With the electronic banking feature you can pay all of your employees from your desktop – no more trips to the bank on payday.

Information for Super Choice

Payroll Premier gives you information and links to the ATO's Super Choice site as well as the ability to create a unique Superannuation fund for each employee. Payroll Premier also allows you to store information on an unlimited number of super funds.

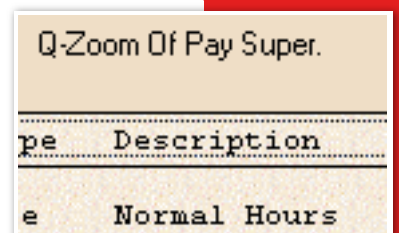

A secure and permissions-based payroll system

Payroll Premier has the ability to track two or more companies simultaneously, and easily handles hundreds of employees. As your business grows, Payroll Premier can also expand with you.

Easily view each payroll component

The revolutionary Q-Zoom will help you to understand the details behind the payment calculations you make. Q-Zoom allows you to see how Payroll Premier has calculated each payroll component such as Wages, Commission Payments, Allowances, Deductions, Sundry Payments, Superannuation, Gross Pay, Tax and Net Totals.

Payroll Premier 2006/07

Features & Benefits

Enhanced accuracy

The Timesheet component of the Awards module allows you to pre-determine the pay rates that are applicable to hours worked at various times and days of the week. So all you have to do is enter the start and finish time of each shift and Payroll Premier will do the rest – automatically and with enhanced accuracy.

Reduce time spent on employee records

Minimise data entry by using the Awards module. The module includes standard conditions of employment, such as the accrual of different types of leave. You can also determine the superannuation rate for one or more groups of employees. The Awards module can store relevant rates for full time, part time and casual employees, their allowances and the manner in which they progress to the next level of employment. All this can be done automatically.

Rate	Every	Accrual	Del
1.00		Pays	
1.00		Pays	
1.00		Pays	

Normal Hrs

New Features

Be up to date with various government legislations

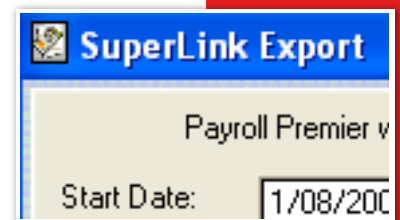

Payroll Premier keeps you up to date with PAYG tax tables, state payroll tax rates and thresholds that come into effect on July 1 2006. Also included are INB payment summaries that ensure you comply with new ATO requirements whilst reducing the administrative burden on your business. The summaries can be saved as a PDF, this creates added flexibility in delivering the payment summary, as the PDF can be attached to an email and then sent to an employee.

Quicken SuperLink

If you want to take the headache out of Super Choice, Quicken's new integrated solution, Quicken SuperLink* can help. No more writing cheques, printing reports and sending them to each super fund – simply create your pays, export to Quicken SuperLink then go online to upload the export file and process the transaction.

*You must first subscribe to Quicken SuperLink. Additional costs may apply.

Want More?

You can set up Payroll Premier on a network so that more than one person can access the company's payroll information at one time. Contact Quicken to purchase a multi-user licence for this software on 1300 QUICKEN (784 253).

Features referred to may be available with this version only and may not continue or be available or offered on any subsequent or future versions of the product.
